## Use the S.U.R.E. ways to do your research:

### Source

Look at its origins.  
Is it trustworthy?

Make sure that the source of information is credible and reliable.

### Understand

Know what you're reading. Search for clarity.

Look for facts rather than opinions.

### Research

Dig deeper. Go beyond the initial source.

Investigate thoroughly before making a conclusion, check and compare with multiple sources.

### Evaluate

Find the balance.  
Exercise fair judgement.

Look from different angles - there are at least two sides to a story.

**Recall this from Project Work?**

# CW Issue 4- Sexting

What are some of the apps which can potentially promote negative online behaviours (e.g. sexting, online scam etc.)?
